Perry and Taryn have independently travelled the world and first met in Cairns in 1992. Their combined passion for diving and the ocean led them to buy "Ocean Free" in 1995. They still love, whenever they can, to take people snorkelling and diving. "Jazz - their son" has also inherited their enthusiasm for the reef and "Ocean Free".

Perry and Taryn have an obsession for great personal service and have over the years 'hand picked' the best crew available for unsurpassed service, professionalism and a high respect for safety. They view their crew as their best asset (and extended family!) and guarantee that all guests will be well looked after regardless of their level of snorkelling or diving expertise.
